It's okay to just have the interns manage the list. I just sent them ours. This way – we will not send statements out to our list. It's a unnecessary duplication.

Don't worry about vocus access for me.

Well, we've created a Gold King Mine list in Vocus. We figured adding every GKM reporter to the national would lead to us sending even to those who were assigned this story because of its huge scope but don't normally deal with environmental issues.

Let me see what I can do.

Robert –

I looked in Vocus and cannot find your list – I maybe don't have access. Can someone get me access? We should just add to the national list. All of R8's stuff is national and the JIC / county are the ones who communicate with the immediate local media if there's information about where to get water and such because we have not been asked to release that kind of information. Once I have access, I can add people to it as we get requests and we don't have to worry about our list.

Let me know what you think and if there's a vocus person who can get me access to your list.
Trying to streamline!

Thanks.
